Description

The FG9250E Q Series Petrol Generator lives up to the Built Ford Tough standards. The single-cylinder 4-stroke OHV air-cooled engine provides a maximum output of 6.5kw and a continuous output of 6kw.

Dual voltage allows the generator to be used in either 110 volts or 230 volts. This allows the generator to be used for site work while in 110 volt mode which is both safer and mandatory in most work sites in the UK.

Features

- Euro 5 Single cylinder 4-stroke OHV, air cooled engine
- Digital 3-in-1 meter (Voltage / Frequency / Time).
- Foldable handle for easy manoeuvrability
- Circuit Protectors
